Battle for Peace

When will we ever learn? Again and again there is futile loss of life caused by squabbles over land, oil, diamonds, religion, and many other commodities. Some brave souls try to show us a different path but again and again we lose our way.

This NWTC Youth Group production was created from diverse selections ranging from Shakespeare and Shaw to Lennon, Ghandi and Obama. So many have encouraged their people to go to war, so many have perished, but still the wars go on and on.
